

# Nana

I chose my grandma, Nana, because she is as nice as a pineapple upsidedown cake. We share many interests such as; picking wildflowers, taking walks with her cane going thud! thud! we both like swimming with the turtles. (not real turtles, just the group who swims across the lake and back.) We both LOVE books, and she's always reading a book from her big library. (yes, she has a library, with good books too!) And she always has cool stories, which I listen to with overwhelming joy.
