

RUDESHEIM (Home of Rudes)

Probably the most talked about spot in Rüdesheim was the Drosselgasse, a narrow cobblestone avenue in the western part of town. It was the town's cultural heart, loaded with beautifully decorated restaurants, open-air winegardens, and massive souvenir shops. Live music played all through the summertime, whether it was traditional bands or karaoke. The tightness of the street never seems to deter -- it was always packed elbow-to-elbow!
